

VUZIX M4000™

Vuzix is the clear choice for enterprise smart glasses applications

VUZIX M400™

The perfect balance of performance and comfort

Stay on task even in harsh work environments. Our ruggedized smart glasses carry an IP67 rating against dust and water, along with an ever-expanding list of critical workplace certifications.

Our sharp, ultrabright optical displays have defined the global smart glasses industry, and our current suite of products deliver some of the most advanced optics on the market. Built to stream and share information, we keep teams connected.

Driven by advanced technology and designed for wearability, Vuzix smart glasses can handle almost any enterprise workplace need.

Whether you're in the warehouse, on the floor, or in the operating room, we understand that comfort is just as important as performance.

Only Vuzix glasses are made for all-day wear, featuring a hot-swappable battery, various control inputs, and diverse mounting options so you can customize for any preference.

The Vuzix M-Series Solution

Hot swappable battery replacement for zero down time and maximum lightweight comfort

4K 30fps video streaming with a 12.8 megapixel auto-focus camera

Workable with both left and right eye dominant smart glasses users

Designed for all-day wear with several different functional mounting options

ISO 14644

IEC 60601
